

# BRIAN OSBORNE

309 Muriel Drive | Northglenn, CO 80233 | (256)312-3981 | [brian.osborne77@yahoo.com](mailto:brian.osborne77@yahoo.com)

## SUMMARY OF QUALIFICATIONS

**Certified Welder** with 21 years of experience working within fast-paced environments, with an emphasis on accurate design, efficient processes, productive operations, and superior service to internal and external customers. Innovative and self-motivated employee who excels at creating solutions to customers, colleagues, and the company as a whole. Strong communication skills, serving as a valuable coordinator and manager. Proven record in accomplishing goals accurately, on time, and within budget parameters.

## AREAS OF EXPERTISE

Welding and Fabrication • Design and Development • Operation and Maintenance of Tools and Equipment  
Efficient and Effective Processes • Quality Controls and Assurance • Re-work of Parts and Components  
Team Training and Management • Daily Business Operations and Administration • Special Projects • Best Practices

## WELDING EXPERIENCE AND ACCOMPLISHMENTS

**Welder** | Pell City, AL

1997 – 2012

*Energy Absorption Systems* | 1999 - 2012

*Pell City Industrial Services* | 1997 - 1999

Capably performed all welding and fabrication functions, using a wide range of tools, equipment, and machinery to create parts according to blueprints and specifications.

- Worked with equipment such as precision measuring instruments, robotic welders, oxy/acetylene torches, plasma torches, arc gouging torches, drills, grinders, vertical band saws, CNC burn tables, punches, shears, forklifts, and overhead cranes. Regularly inspected and maintained equipment to ensure that all equipment operated at optimal levels.
- Loaded jigs to fabricate parts. Welded parts with aluminum migs, mag drills, and arc welders.
- Utilized AutoCad to program custom parts on the CNC burn table.
- Conducted quality checks on all welded products.
- Performed re-work on returned products.
- Trained and mentored junior welders on best practices for welding and fabrication. Served as Acting Foreman in absence of the full-time Foreman to assign activities and supervise operations.

### Key Accomplishments:

- ✓ Received the “Idea of the Year Award” for the design of a fixture for a new product that increased production and decreased extremely dangerous conditions for the welder.
- ✓ Awarded “Employee of the Month” on 4 occasions and “Employee of the Year”.
- ✓ Saved money on production costs and improved safety by designing a rotating motorized fixture.
- ✓ Participated in several LEAN (5S) events at Energy Absorption Systems. Oversaw all metal-related issues for a group of up to 15 welders.

## ADDITIONAL EXPERIENCE

**Customer Service Associate and Stocker** | Total Beverage | Thornton, CO

2013

## EDUCATION, CERTIFICATIONS, AND TRAINING

Welding Trade School

Certified Welder (MIG)

Certificated of Completion for numerous training seminars on welding and fabrication

## TECHNICAL AND COMPUTER SKILL SET

Windows Operating Systems • Microsoft Office • AutoCAD • PeopleSoft • Blueprints and Flowcharts

Welding and Fabrication Tools and Equipment • Electrical Circuit Grounding • AC/DC Systems • Volt Meters
