WELDER & CERTIFIED MANUFACTURING TECHNICIAN

I am a Certified Manufacturing Technician and a Non-Certified Welder with training from CTEC and hands-on experience in industrial shop environments and excavation. I excel in precision welding, heavy equipment operation (Skid Steer, Excavator), and meticulous material handling—skills directly supporting quality fabrication. I am seeking a position focused on structural or production welding within a manufacturing facility or industrial shop in the Denver/Longmont, CO area.

Certifications: CTEC (Manufacturing Certification) 10h OSHA

Core Skills: TIG, MIG, and STICK Welding, Manufacturing Processes, Blueprint Reading, Skid Steer Operation, Excavator Operation, Industrial Labor, Shop Hand Duties, Precision Material Handling

Experience

Shop Hand - Tampering Processing | July 2 – November 12 of 2022

- Supported all shop functions, including material processing, tool organization, and ensuring a safe and clean work environment.
- Managed the preparation and staging of raw materials, ensuring accurate counts and timely delivery to the fabrication area to maintain production flow.

Laborer & Equipment Operator - Left Hand Excavating 2.0 | September 9 – May 16 of 2024

- Served as a heavy laborer on excavation sites, assisting with trenching, grading, and site preparation.
- Gained practical, hands-on experience operating a Skid Steer and an Excavator for site movement and dirt work.

Education & Training

- **Career & Technical Education Center (CTEC)** | Welding and Manufacturing Certification | 2024
- **Mead High School** | High School Diploma
