I want to take what I have learned during my time in academia and apply it to real life. I work best in environments where I am challenged and where my skills are put to the test. I enjoy being pushed in situations that I am unfamiliar with to hone my own skills. I majored in Communications because I knew I wanted to work with people.

Work Experience

Manager in Training-Front of Haus

Haus Salon - Minneapolis, MN

January 2017 to Present

I currently work at Haus Salon as a part of the front of house team and recently as a manager in training. My daily work consists of answering phones, scheduling clients, product knowledge and working with branding the product to the clients. I also do a lot of logistical work such as tracking sales numbers for the stylists and PTO tracking. Recently as a part of my manager training I have been helping a lot with the social media and marketing side of the business. My main duties are with the gathering of content, photography, instagram images, etc.

Stock Associate

Anthropologie

September 2015 to August 2016

At Anthropologie I worked as their Stock Associate. My main duties were on shipment days when new clothes would come in. I made sure we had all the right items and sorted them and got inventory ready and the floor items ready. I worked closely with the social media director to market our brand and get the new product out to the public.

Skills/Volunteer Experience:

Receptionist

Bryce Jermaine Salon

July 2013 to July 2015

I worked at Bryce Jermaine Salons as their receptionists. I answered phones, scheduled clients and worked with the salon manager to keep the salon running smoothly. I worked with the product and getting product knowledge to the clients of the salon. I also helped with planning events that the salon held to promote their brand.
