Work Experience

Construction Laborer

JCC | Clinton, OK

September 2025 to Present

To operate older, water truck, and other various equipment while safely moving through work zone. To provide safe working environment for entire crew.

Transport water using water trucks to designated areas; complete daily logs and delivery records.

Concrete Finisher

RollInc | Aurora, CO

March 2025 to Present

To provide white glove service with great attitude.

Form Setting: Ensuring forms are built to the correct depth, pitch, and alignment. Placement & Screeding: Raking concrete and using a straightedge to level the freshly poured surface. Floating & Troweling: Smoothing the surface, removing imperfections, and bringing "cream" to the top using magnesium floats, bull floats, or walk-behind power trowels. Edging & Jointing: Using edging tools and jointers to mold expansion joints and round off the slab edges to prevent chipping. Finishes: Applying specific textures, such as a slip-resistant broom finish, sand finish, or stamped pattern.
