Authorized to work in the US for any employer

Work Experience

Locomotive Engineer

BNSF - Denver, CO

March 2014 to Present

Reviewed and interpreted train orders, signals, and railroad rules and regulations.

Observed railroad path to identify hazards or obstructions on tracks.

Addressed emergent situations and locomotive breakdowns, responding with timely resolutions. Verified adequate levels of fuel, sand, water, and other supplies and replenished missing items prior to departure.

Communicated with conductors or traffic control personnel regarding stops, delays, or oncoming trains.

Inspected mechanical systems and components to verify locomotive functionality prior to operation.

Documented daily operations, including issues such as accidents or unscheduled stops.

Operated diesel locomotives, using throttle and air brakes to initiate and stop vehicle movement.

Monitored and regulated speed, amperage, battery charge, and brake line pressure to foster continuous functionality.

Followed all established safety protocols and regulations when operating and maintaining locomotives or related equipment.

Managed files and continuously updated and organized records.

Bottling Line Operator

MillerCoors | Golden, Col ado

Tended to machinery sorting and packaging materials.

Protected line quality by removing rejected items for recycling, disposal or use in lower quality product line.

Prepared shipments by packaging and securing finished items.

Maintained quality standards through correct sorting and grading of products.

Avoided backups by keeping parts clear of damaged or inferior materials.

Met product specifications by sorting, weighing and adjusting products.

Kept production flowing with quick attention to jams and malfunctions.

CNC Operator

Trane | Pueblo, Colorado

Located defects through in-depth visual examinations and standardized tests.

Achieved smooth surfaces and proper fits with skilled grinding, filing, and sanding.

Maintained consistency of work with good use of GMP and strong attention to detail.

Corrected problems with machinery by identifying and correcting problems with tooling and settings.
Helped team consistently meet production targets by managing raw materials and preparing completed work for additional processing or shipment.
Produced work in conformance with tight tolerances by accurately reading technical documentation and work orders.
Prevented equipment breakdowns through proactive maintenance actions and general upkeep.
Met quality targets by correctly setting and adjusting machines for accurate operation.
Measured dimensions of finished workpieces to ensure conformance to specifications, using precision measuring instruments, templates, and fixtures.
Checked completeness and quality of finished products to verify accuracy of cuts and trimming work.
Checked conformance of finished workpieces, carefully measuring dimensions and comparing with specifications.
Prevented equipment malfunctions with proactive monitoring during operations and quick corrective actions to handle vibrations and other problems.
Maximized team safety, consistently following optimal procedures to avoid accidents and hazards.
Protected machinery and workpieces by maintaining proper lubrication and cooling.
Stopped machines to remove finished workpieces or to change tooling, setup, or workpiece placement, according to required machining sequences.
Set up equipment for new production runs, mounting and aligning tools and attachments for precise cuts.
Mounted, installed, aligned, and secured tools, attachments, fixtures, and workpieces on machines, using hand tools and precision measuring instruments.
Maintained cut precision by removing and replacing dull tools.

Education

Hs diploma

Colorado State Academy - Denver, CO

June 2003

Bachelor's degree

Skills

- Detail oriented (8 years)
- Task prioritization
- Decision making
- Troubleshooting techniques
- Time management
- Order processing
- Calipers
- Micrometer
- Precision Measuring Instruments
- Quality Inspection
- Assembly
- Order fulfillment

- Warehouse experience
- Blueprint Reading
- CNC
- Manufacturing
- 5S
- Power tools
- Crew management
- Customer service
- CGMP
- Quality Audits
- Lean Manufacturing
- CNC Lathe
- Forklift
- CNC (4 years)
- Customer support
- Analysis skills
- Heavy lifting
- Woodworking
- Painting
- Six Sigma
- Continuous improvement
- Production planning

Assessments

Manufacturing Fit — Proficient

October 2020

Measures the traits that are important for success in manufacturing roles

Full results: [Proficient](#)

Work style: Reliability — Proficient

September 2021

Tendency to be reliable, dependable, and act with integrity at work

Full results: [Proficient](#)

Forklift safety — Highly Proficient

December 2020

Best practices and safety hazards in forklift operation

Full results: [Highly Proficient](#)

Verbal communication — Highly Proficient

January 2021

Speaking clearly, correctly, and concisely

Full results: [Highly Proficient](#)

Workplace safety — Highly Proficient

February 2021

Using safe practices at work

Full results: [Highly Proficient](#)

Warehouse shift leader — Proficient

September 2022

Supervising warehouse staff and maintaining safety and security standards

Full results: [Proficient](#)

Work style: Reliability — Proficient

September 2021

Tendency to be reliable, dependable, and act with integrity at work

Full results: [Proficient](#)

Attention to detail — Proficient

March 2022

Identifying differences in materials, following instructions, and detecting details among distracting information

Full results: [Proficient](#)

Work motivation — Proficient

March 2022

Level of motivation and discipline applied toward work

Full results: [Proficient](#)

Workplace safety — Highly Proficient

February 2021

Using safe practices at work

Full results: [Highly Proficient](#)

Manufacturing fit — Highly Proficient

October 2021

Measures the traits that are important for success in manufacturing roles

Full results: [Highly Proficient](#)

Forklift safety — Highly Proficient

December 2020

Best practices and safety hazards in forklift operation

Full results: [Highly Proficient](#)

Scheduling — Highly Proficient

January 2023

Cross-referencing agendas and itineraries to avoid scheduling conflicts
