Authorized to work in the US for any employer

Work Experience

CNC Machinist

Tecomet-Boulder, CO

September 2018 to Present

Working with seals, both aerospace and beyond. Machining plastic bar stock and billets to perfection. Learned how to operate every single machine to the optimal level! Learned serious high speed machine volume and able to work faster than the average player. Just now stepping up to conquer the old Harding setups. This Machining is very high speed and needs a great machinist like me who started out running molding injection machines and metal injection machines and high forming materials and metals.

Manufacturing Associate

ResourceMFG-Longmont, CO

Worked there only when I liked to eat. Emergency employment.

CNC Setup Machinist

Trelleborg Sealing Solutions-Louisville, CO

April 2020 to July 2025

CNC Setup Machinist

Trelleborg Sealing Solutions-Louisville, CO

April 2020 to July 2025

- Operate machine's while doing quality inspections throughout the run.
- Complete set-ups and run 1st article.
- Ability to read prints

Education

High school diploma

I.E.C.-Thornton, CO

June 2002 to November 2004

Work at Electrical apprentice at Cheyenne Mountain Electrical and Joint contractors Denver Colorado.

Skills

- Medical Assembly (1 year)
- Analysis skills (10+ years)
- Attention to detail

- Windows
- Working at Trelleborg sealing solutions in Louisville Colorado. Have been there going on 4 year. (6 years)
- Quality assurance (10+ years)
- 5S
- Blueprint reading (10+ years)
- Basic math (10+ years)
- ISO 9001
- Micrometer (10+ years)
- CNC Programming (10+ years)
- Tooling (3 years)
- CNC (10+ years)
- AS9100
- English (10+ years)
- Machining (10+ years)
- Continuous improvement
- Manufacturing (10+ years)
- Precision measuring instruments (10+ years)
- Machining at Trelleborg (5 years)
- Leadership
- Computer skills (10+ years)
- Quality Inspection (10+ years)
- Blueprint specification interpretation
- Quality systems
- Plastics injection molding
- CNC programming (5 years)
- CNC lathe (10+ years)
- CNC Milling Machine (10+ years)
- Math (10+ years)
- Fanuc (10+ years)
- GD&T (10+ years)
- Coordinate measuring machine (10+ years)
- CNC Lathe (10+ years)
- Blueprint Reading (10+ years)
- Organizational skills
- Precision Measuring Instruments (10+ years)
- Lean manufacturing
- Data collection
- CNC (10+ years)
- Mechanical knowledge (10+ years)
- CAM programming (8 years)

- ASME codes & standards
- Geometry (10+ years)
- Calipers (10+ years)
- Bore gauges
- CNC milling machine (10+ years)
