Professional Summary

I take a lot of pride in the work I do, quality is always my top priority next to safety. I'm a very motivated and driven individual who's always looking for the next challenge.

I started my welding career in 2014 with a friend of mine who had a small welding company, over the 4 years I worked with him I went from being a helper to being the guy that took the truck when the big jobs called. I specialize in sanitary piping, but I can get any job done with a TIG machine.

Tig welding - 6 years

Stick welding -5 years

Pipefitting - 6 years

Work Experience

Sanitary Welder

Citrotec-Denver, CO

August 2025 to Present

Fitting and welding stainless steel piping for Pepsi's new plant.

Lead Welder/Fabricator

Cummins-Henderson, CO

August 2023 to February 2025

Welding/fabricating generator enclosures and fuel tanks. FCAW/MIG

I ran a 8 person crew there.

Lead Fitter/Welder

Roeslein & Associates-Louisville, CO

May 2024 to August 2024

fitting and welding structural steel to support oil and gas pumps. Running my own crew of 7

Also a good bit of pipefitting involved.

Lead TIG Welder/Fabricator

Codi Manufacturing Inc-Littleton, CO

November 2022 to July 2023

Fabricating and welding various stainless steel and aluminum parts for the craft canning industry. A lot of sanitary tubing and tanks.

Ran a crew of 5

Welder/Helper

Catawba Arc-Hickory, NC

June 2014 to April 2018

Very broad scope of work. From erecting and welding steel and aluminum fences, to replacing water lines and tanks. SMAW, TIG, MIG, and Flux Core
