## Work Experience

---

### **Welder**

Crystal Distribution - Elk River, MN

May 2018 to Present

This position requires me to weld and read prints to accurately shell and build custom curb adaptors for commercial AC units. Other responsibilities include QC, welding and squaring frames for different types of curbs, and also working in a group environment to ensure timely delivery of products with a consistency of 99.3% delivered on time.

### **Screen Printer**

Screaming Eagle Promotions - Maple Lake, MN

June 2011 to July 2017

#### Responsibilities

Responsibilities include washing screens to get rid of ink, and chemicals that could be left over from previous washing or previous jobs printed, the position also included ink mixing, data entry and printing hundreds of shirts while making sure the print is perfect and the goods stay clean.

#### Skills Used

The skills used for this job is mostly strength, you would use your strength to print and clean the screens every day to make sure you maintain a clean and orderly work place, you should also have good eyesight and be able to keep a steady hand to make very minor adjustments to keep the print looking perfect with no hazes and no overlying ink

### **SANDER**

TWIN CITY DIE CASTING - Monticello, MN

March 2015 to June 2015

#### Responsibilities

My responsibilities include sanding metal parts and packaging them for machining, Machining some of the materials, deburring with deburring knife and other hand tools, while sometimes running die castings machines before parts are sent to be sanded.

#### Skills Used

The skills used in this position are inspecting every piece before deburring, and being careful where you deburr and how long the sander is there, while making sure to use the right grit of sandpaper so not to destroy parts.

### **Deburrer**

WSI INDUSTRIES - Monticello, MN

December 2014 to March 2015

#### Responsibilities

Inspect parts for burrs inside and out, while keeping a consistent pace to get the parts deburred, washed and dried, while filling out shipping labels and entering data for each piece to keep track of where the material is placed.

#### Skills Used

I had to demonstrate my skills with hand tools such as rotary grinders, die grinders and palm sanders, along with troubleshooting leak testing machines and washer issues.

### **CNC Machinist**

CEDAR LAKE ENGINEERING - Maple Lake, MN

August 2014 to December 2014

#### Responsibilities

Responsibilities of this position include driving the forklift, and inspecting/measuring parts incase any adjustments are needed, also we would run the machines, pick up and sweep the machines and package materials.

#### Skills Used

The skills demonstrated at this job would be standing for long periods of time, keeping an eye out for bad parts or watching to make sure no adjustments are needed to the die or the material.
