Work Experience

Level 2 Machinist

Manes Machine

January 2025 to Present

I am responsible for the production of aerospace components on 5 axis cnc mills. I load programs, fixturing, offsets, material, and dial part dimensions for a first article of a production run.

Sous Chef/Line Cook

Intel Corporation | Fort Collins, CO

March 2024 to January 2025

I was responsible for the preparation and setup of our cook line for breakfast service, performing line checks, and daily lunch special preparation and service. After serving time ended, I performed clean up, including dishwashing and pan setup for the next day.

Tool Room Attendant

Manes Machine & Engineering | Fort Collins, CO

April 2023 to March 2024

I was responsible for maintaining the organization of the tool room, building tooling packages to be ran on three and five axis cnc machines, and general good housekeeping. In my downtime, I worked on detail projects such as honing bushings, drilling and tapping features unobtainable on our Cnc's, as well as drill and weight balancing of new toolholders.

Production Foreman

Sprague Structural Solutions | Loveland, CO

July 2022 to April 2023

I was responsible for running a two-man crew, lifting and leveling concrete. We would arrive at the shop, fill on material, then make an on the way call and head to the customers house. We would fire up our machines to get them warming up after we get done with a walk through with the customer. Then we would lift or level, prepare and fill cracks and control joints, and apply surface sealant, depending on the job scope of that particular customer's needs.

Level 1 Radiographer

National Inspection Services | Fort Collins, CO

June 2018 to February 2021

I was responsible for the inspection of welds within the pipeline industry using non destructive testing methods to confirm conformance to API 1104 and B31.3 standards for weld quality and structural integrity.

Line Cook

Famous Daves BBQ | Fort Collins, CO

May 2010 to June 2018

I was a line cook and worked alongside one other cook on the morning shift, prepping everything for the line and getting ready for service. I also worked nights when I was closing the kitchen.

CNC Machinist
Manes Machine & Engineering | Fort Collins, CO
May 2014 to May 2018

I was responsible for the setup and component production of five axis cnc mills for our aerospace customers. I had to follow strict precision and quality standards and make adjustments as necessary to conform to set requirements laid out by the customer.

Education

Cnc setup and operation (Some college)
Norco College | Norco, CA
June 2008 to December 2008

Upper secondary education

Trade school

High school diploma or GED

Skills

- Equipment troubleshooting
- Milling machines
- Blueprint Reading
- CNC
- Maintenance work
- Bicycle cable replacement
- Microsoft Excel
- Dimensional measurements
- Restaurant experience
- Lean Manufacturing
- Plumbing
- Leadership
- 5-axis CNC machine
- Hand tools
- Safety hazards
- Maintenance
- Dial indicators
- Culinary Experience
- Calipers
- Optical comparators
- Mechanic
- Experience
- Driving
- Computer operation
- Micrometer
- Cash handling
- Machining - Machinist
- experience (3-5 years)
- Measuring instruments
- Forklift
- Electrical systems installation
- Power tools
- Van driver
- Conflict management
- Time management
- Customer service
- Communication skills
- Quality Control
- Bicycle repair
- Customer inquiry handling
- Mechanical knowledge
- Computer
- skills
- Attention to detail
- Holding tools
- Quality inspection
- Customer communication
- Mechanical
- assembly
- Bicycle gear shifting system setup
- Mechanical troubleshooting
- Non-destructive
- Testing
- Lighting system installation
- Bicycle brake adjustment
