- **Transportation & Logistics Management**
 - Route Planning & Freight Coordination
 - Regulatory Compliance (DOT, FMCSA, Military Regulations)
 - Transportation Management Systems (TMS) & GCSS-Army
- **Supply Chain & Inventory Control**
 - Asset Tracking & Auditing
- **Electronics & Electrical Assembly**
 - Soldering (SMT/Through-Hole)
 - Wire Fabrication & PCB Rework
- **Quality Assurance & Testing**
 - Troubleshooting & Diagnostics
 - Risk Assessment & Mitigation

Professional Experience:

88N Transportation Management Coordinator (US Army Reserves)

United States Army | Decatur, GA | February 2025 – Present

- Plan and execute transportation of personnel, equipment, and hazardous materials in compliance with Army regulations (AR 55- series) and federal guidelines.
- Coordinate with freight carriers, DOD agencies, and unit logistics teams to optimize supply chain efficiency.
- Maintain transportation documentation, including bills of lading, customs forms, and cargo manifests.
- Utilize GCSS-Army and SAP systems to track shipments, manage inventory, and reduce transit delays by 20%.
- Conduct risk assessments for high-value or sensitive cargo movements.

Electrical Wiring Fabricator / Electronics Mechanic

Lockheed Martin | Marietta, GA | February 2024 – February 2025

- Fabricated custom wiring harnesses for aerospace systems, adhering to technical schematics and MIL-SPEC standards.
- Performed QA testing on electrical assemblies, resolving defects to maintain 99% compliance with safety protocols.

Lab Technician

Axiom Staffing | Smyrna, GA | March 2023 – May 2023

- Calibrated and repaired circuit boards using oscilloscopes and multimeters.

Electronics Assembler

Raytheon | Andover, MA | January 2008 – December 2015

- Assembled and soldered PCBs for defense systems, including epoxy bonding for ruggedized components.

Military Service(US Army Active duty):

91C Utilities Equipment Repairer (HVAC)

U.S. Army | Various Locations | December 2020 – November 2022

- Led maintenance on HVAC systems for 54 personnel, ensuring 100% operational readiness during deployments.
- Trained 10+ team members on SAP logistics software, reducing supply request processing time by 30%.

25P Microwave Systems Operator & Maintainer

U.S. Army | Fort Detrick, MD | March 2017 – November 2020

- Managed strategic comms systems, performing diagnostics on microwave and fiber-optic networks.
- Developed training programs that improved unit electronics maintenance proficiency by 75%.

Education & Certifications:

- **High School Diploma**
- **OSHA Safety Training**
- **GCSS-Army Logistics Training**
