EMPLOYMENT EXPERIENCE:

2006-2009 Sears Longmont, Co

Electronics Sales Consultant

Engaged Customers in a comforting manor with up to date information on the latest products and technology : HD Televisions, Home Theater, Gaming etc.

Customers leaving with a new product with confidence or leaving with accurate information to look over without being pressured. Make a pleasant shopping experience for all customers

2009-2010 Covidien Gunbarrel, Co

Assembly Line worker

Assembled Medical supplies for Hospitals and Animal Hospitals

Worked on multiple conveyors, sorting product suitable for release. Operating multiple machines that each assemble or package product

Required to lift heavy boxes and occasionally operating fork trucks

2011-2012 Frontier Honda Longmont, Co

Service Writer Assistant/ Service Drive Greeter

Guided customers through the service drive. Took all the necessary information (mileage, vin number) asked the customer what type of service they were in for and directed them to the appropriate service writer.

Gave customers rides to work or home in the courtesy shuttle

Occasionally washed customer vehicles if short staffed

Drained mechanics oil drums when full, refilled their brake liters when low

2012- 2015 Automation Solutions (r/x) Longmont, Co

Mechanical and Electrical Production

Building Pill Counters and auto baggers for mail order pharmaceutical companies . Assemble numerous of small assemblies that are all necessary to complete the final product. Organization and having work done before or by deadline are key.

When machine is at the last phase of production we took it and began the testing and quality control.

When product passes testing and meets quality standards we packaged and place on skids for shipping.

Worked with an ensemble of hand tools: Drivers, wrenches, drills, saws, tape measure, etc.

2016- Early 2017 Aim Processing Longmont, CO

Plastic Process Setup Technician

Ensuring that all molding machines have the appropriate mold for current order. Once job is complete next step is to remove mold from machine and return to "mold room" for proper inspection and maintenance. Once new or comes in we put new mold into machine, punch in all appropriate setup stats so that machine runs like it did before. Once machine is completely setup prepare to run in full automatic (robot) or semi-automatic (operator). Occasionally restarting machines if machine stops due to operator error or machine error. Troubleshoot problems within machine and restart

2017- 2018- Canyon Framing

Assisted in office. Answer phones assist in filing, deposits to bank and schedule check pick-up for crews. A family friends newly established business, basically helped while he settled in and comfortable with workflow.

2018-2021- CIE Solutions Longmont, CO

Shop Supervisor and Lead Assembler

Lithium Ion battery module assembly. This had a wide range of different types battery modules from 14volt-240volt packs, all custom designed by our engineer and customer engineers. These battery modules would be used to power vehicles, robotics and some replaced diesel powered machinery like generators and large wire spoolers.

SKILLS:

I am easy to talk to and good with people, also good with my hands and always eager to learn new skills and looking to challenge myself. I know how to operate most tools accurately and safely. I have hours of forklift time. I follow directions well and always do the best to my abilities. I know how to operate a fork truck and most hand tools. I'm a punctual person I believe in being early or on time with everything

INTERESTS AND HOBBIES:

I'm always up for new things. Music has a major part of my life, I enjoy both listening to it and going to live concerts. I also enjoy spending time with my friends, family and my girlfriend. I love animals like my cats and dogs I enjoy the company and playing with them. I enjoy going to the movies and playing video games. When I'm not doing any of these things I spend my time helping my mother and working on my house making improvements.
