PROFESSIONAL SUMMARY

Self-driven and highly adaptable manufacturing and industrial worker with extensive experience in CNC machining, water transfer, furnace operations, welding, and heavy equipment operation. Known for strong work ethic, reliability, and commitment to safety and excellence. Authorized to work for any US employer.

EXPERIENCE

AMCT Locksmith

Locksmith Technician

- Installed, repaired, and maintained residential, commercial, and automotive locking systems.
- Rekeyed locks and cut duplicate keys using specialized locksmith tools and key-cutting equipment.
- Diagnosed and repaired malfunctioning locks, door hardware, and security devices.

Big Creek Resources — Greeley, CO

Water Transfer Technician

- Set up, operated, and monitored water transfer systems to support oil and gas field operations.
- Installed and maintained hoses, pumps, and manifolds for efficient water movement between locations.

EMIT Technologies, Inc. — Greeley, CO

Machinist

- Operated and maintained a Python Plasma CNC machine, performing precision cutting of metal components while ensuring adherence to production specifications and safety procedures.

EXPERIENCE (CONTINUED)

Golden Aluminum — Fort Lupton, CO

Casting Operations Technician (TEC I → TEC III / Lead)

- Progressed through multiple technical roles from TEC I to TEC III / Lead within aluminum casting operations.
- Operated and monitored continuous block caster equipment and supported hot mill production processes.
- Performed chlorine cleaning of aluminum, prepared equipment, and collected production samples for quality control.
- Assisted with Selly bowl operations and maintained casting system performance.
- Managed rewind operations and maintained consistent production flow.
- Provided leadership support on the floor, including coordinating workflow and providing operational coverage for team members during breaks.
- Ensured adherence to safety procedures and production specifications in a fast-paced manufacturing environment.

SKILLS

- | | | |
|---------------------------------------|---------------------------------------|-----------------------------|
| • Manufacturing (10+ years) | • Heavy equipment operation | • Welding |
| • Supervising (3 years) | • Commercial driving | • Plasma cutting & torching |
| • CNC machining, milling, programming | • Commercial experience | • Delivery driving |
| • Mastercam & G-code | • Troubleshooting / mechanical skills | • CPR certified |
| | | • H2S, PEC, GPS certified |

ROBERT JOHNSON

Dear Hiring Manager,

I am excited to apply for a position within your organization, bringing over 10 years of hands-on manufacturing experience combined with CNC machining, heavy equipment operation, and supervisory expertise. My career has allowed me to develop a strong technical foundation and proven leadership skills that align with the high standards required in manufacturing and oilfield operations.

I have extensive experience with CNC milling machines, CNC programming, and Mastercam/G-code operations, as well as plasma cutting and gas-fed torching, ensuring precision and efficiency in every project. In addition, I possess a solid background in machining, mechanical repair, welding, and troubleshooting, which enables me to quickly diagnose and resolve technical issues to maintain production uptime.

Beyond technical proficiency, I have three years of supervisory experience, where I successfully led teams, coordinated production schedules, and implemented safety protocols. I also hold several critical certifications, including H2S, PEC, GPS, and CPR, reflecting my commitment to safety and regulatory compliance in high-risk work environments. My background in heavy equipment operation, commercial driving, and water transfer services complements my manufacturing expertise, giving me versatility across both shop-floor and field operations.

I am confident that my combination of technical skills, leadership experience, and hands-on operational knowledge makes me a strong candidate to contribute immediately to your team. I would welcome the opportunity to discuss how my background and capabilities can support your production goals and operational excellence.

Thank you for your time and consideration. I look forward to the opportunity to speak with you further.

Sincerely,

Robert Johnson
