## Work Experience

---

### Welder 3

Sep 2025 - Nov 2025

L&L Fabrication, Greeley, CO

- Tasked with the Fabrication of Pipe Spools as well as ASME pressure vessels.
- Responsible for the cutting, prepping, fitting and welding of both Pipe Spools & Pressure Vessels
- All which would get shot with 100% Xray or Phase Array.

### Welder / Fabricator

May 2022- Sep 2025

RK Energy, Henderson, CO

- Welding across a variety of
- materials including steel, stainless steel, and aluminum. Proven ability to read blueprints, follow
- precise measurements, and produce high-quality, structurally sound welds in both shop and field
- settings. Known for strong attention to detail, safety-conscious work habits, and a solid track
- record of meeting tight deadlines without compromising quality. Dedicated to continuous
- improvement and contributing to team success.

### Freight Unloader

2020-2022

Capstone Logistics, Aurora, CO

- Efficiently unloaded inbound freight shipments by hand and with equipment such as pallet jacks
- and forklifts. Sorted, organized, and staged products for inventory and restocking, ensuring
- accurate counts and minimal product. Worked closely with team members and supervisors to
- meet tight unloading schedules and support overall warehouse operations.

### QC Loader

Year 2019 - Year 2020

Mclane Western, Longmont, CO

- Performed quality checks and ensured accuracy of outbound shipments by verifying product
- types, quantities, and condition before loading. Loaded trucks and containers safely and
- efficiently, following loading diagrams and weight distribution guidelines. Collaborated with
- warehouse and logistics teams to meet shipping deadlines and maintain high standards of quality
- and safety.

## Education

---

### High School

Year 2019

Bridge Academy **Welding Fabrication Technology**

Year 2020 - Year 2022

Lincoln College of Technology
