Education

High school or equivalent

Skills

- Cnc (10+ years)
- Fadal (1 year)
- Part Design (3 years)
- Read drawings/prints (10+ years)
- Okuma (3 years)

- Programming CNC (4 years)
- Mastercam.2019 (1 year)
- Fusion360 (1 year)
- Aerospace (4 years)
- Cnc Lathe
- Cnc Machine
- Cnc Mill
- Mastercam
- Axis

Additional Information

Skills

I have been in the trade for a solid 4 years and I have become quite proficient in programming, setting up, inspecting and operating most CNC machines. I can, read all prints unless its drawn in chicken scratch with coffee stains. I can

make offsets, create/edit programs at the control as well as drawing up parts in mastercam/fusion360. I know how to send files to/and from machines, run a saw, sweep up after myself because everyone should, keep up in a fast paced environment and most importantly, I know when to raise my hand and say that i need help or I dont get it. Majority of my programming has been in the lathe department yet I can jump in with the best of them anywhere from setup to shipping.

I have ran the following machines:

Haas Okuma
Fadal
Mori-Seiki Mitsubishi
Bridgeport
Hurco Makino
DMG-Mori NLX I 2500
Holzher
MG
