-

EXPERIENCE

Order Selector / Keurig Dr Pepper, Inc. - Englewood, CO

03/2021 - Current

- Picked products from designated locations using various tools and transferred to appropriate areas for further processing.
- Monitored aisles and floor areas for neatness and organization to enable forklifts to effectively operate throughout warehouse.
- Prepared products, including proper labels and stage locations for shipping according to company specifications.
- Kept work areas clean, neat and organized for optimal productivity and worker safety.
- Stacked, organized and palletized packages for efficient storage and movement.
- Used voice automated system to effectively pull products in a timely manner.

Welder / Zimmerman Metals Inc. - Denver, CO

05/2016 - 03/2020

- Created safety guards, angle iron and square tubing.
- Adjusted weld machines to correct settings prior to weld applications for precision and waste reduction.
- Improved project completion time by multi-tasking on heavy equipment such as forklifts.
- Inspected chains, hammers and other tools for damage or wear to prevent injuries and accidents.
- Laid out, positioned, aligned and secured parts and assemblies with straightedges and combination square and calipers.
- Removed loose materials and thick scale, slag or rust to prepare material surfaces for welding.

Saw Operator / Williams Form Engineering Corp. - Golden, CO

09/2014 - 05/2016

- Counted, sorted and stacked finished pieces for easy access.
- Reviewed production specifications to properly set up and calibrate machinery.
- Tended machines during operation to monitor progress and adjust controls, maintaining optimal speeds and tension.
- Operated saw to cut along scribed lines.
- Studied blueprints, templates, sample parts and specifications as a guide for sawing operations.

- Kept work areas clean, neat and free of safety hazards to maximize efficiency.

Warehouse Associate / LINK Staffing Services - Denver, CO

07/2012 - 08/2014

- Picked products from designated locations using various tools and transferred to appropriate areas for further processing.
 - Monitored aisles and floor areas for neatness and organization to enable forklifts to effectively operate throughout warehouse.
 - Used RF scanner to pick items from bins and complete orders.
 - Operated warehouse equipment with caution and according to manufacturer instructions to reduce risk of accidents and malfunctions.
 - Printed accurate labels and applied to boxes, crates and containers prior to shipment.
-
