Work Experience

Lube Assembly

PCSFerguson/Dover/Apergy/ChampionX - Frederick, CO
December 1999 to Present

work flow management
Train new employees
Assemble and test
powder coat

Lubricator assembly
January 2012 to December 2021

Assemble and test lubricators for the oil field. Working off prints and work orders, I assemble parts on a test rack; pressure the rack to test welds and other seals on each part. I keep track of purchase orders and heat treat numbers on all incoming parts to assure our customers the highest quality. Managed work flow for lube assembly department. Trained new hires in all process in lube assembly.

Plunger Assembly

January 2008 to December 2012

I took work orders and prints to build quality oil field products for the customer. Control work flow and manage deadlines.

Machine Operator

January 1999 to December 2008

I ran and setup CNC lathes and mills, maintained work flow, read prints, remove and replace tooling. Kept quality assurance paperwork up to date, measured parts using multiple tools, including micrometers, calipers, depth gauges, and threads wires. I started as an operator and worked my way up to shift lead. As lead I assisted the manager in setting up machines, initial setup and quality assurance check, helping, training and leading the shift in resolving most problems, and helping setup work flow.

Setup/teardown Crew

Mile High Flea Market - I-76 and 88th Ave
January 1998 to December 2006

I setup concessions carts, stands and trailers. Maintain during hours of operation and tear down at the end of day. Responsibilities include food delivery, keg delivery, soda delivery, ice delivery, water delivery. Maintain food carts, food stands at end of day.

Education

Devry University
2005

High school diploma in General Education

Fort Lupton High School - Fort Lupton, CO
August 1995 to May 1999

Aims Community College
1999

Skills

- Experience setting up CNC lathes and mills, including multi axis machines
- Reading engineering prints
- Manage work flow
- Calipers
- Micrometer
- Blueprint Reading
- Quality Inspection
- Machining
- Manufacturing
- Quality Assurance
- Assembly
- CNC Milling Machine
- Forklift

Certifications and Licenses

CPR/AED First Aid trained

August 2013 to August 2021

Assessments

Basic mechanical knowledge — Proficient

June 2021

Understanding and applying mechanical concepts and processes

Full results: [Proficient](#)

Mechanical skills: Monitoring — Highly Proficient

June 2021

Understanding of machine dials, gauges, displays, and data charts

Full results: [Highly Proficient](#)

Project timeline management — Familiar

June 2021

Prioritizing and allocating time to effectively achieve project deliverables

Full results: [Familiar](#)

Filing & organization — Familiar

June 2021

Arranging and managing information or materials using a set of rules

Full results: [Familiar](#)

Indeed Assessments provides skills tests that are not indicative of a license or certification, or continued development in any professional field.
