Experience

Chem Key Operator (weekend shift temporary assignment)	05/2026-present
Hach Company	Loveland, Colorado

- Work weekend twelve-hour shifts packaging, labeling, and palletizing Hach Chem Key products.
- Operate and troubleshoot robotics and welders.
- Perform in process tests during manufacturing lot runs using ChemKey analyzer.

=Clean Room Operator (weekend shift temporary assignment)	01/2026 to 05/2026
Osyka Medical	Longmont, Colorado

- Performed clean room assembly, labeling and inspection operations in ESD environments.
- Operated plasma treatment equipment and silicone sealant robotics.
- Worked in a team environment and rotated to other manufacturing cells when required.
- Conducted thorough documentation reviews.

Upstream Manufacturing Associate II	03/2022 to 11/2025
AGC BIOLOGICS	Boulder, Colorado

- Executed mammalian cell culture operations from cell thaw to 20,000-liter stainless steel bioreactors in ISO 5, 7 and 8 cleanroom environments.
- Sampling methods and operation of benchtop meters and laboratory instrumentation.
- Trained team members and utilized SCADA, Microsoft Suite, BMRAM, and Trackwise software daily.
- Addressed and corrected liquid filtration and DO/pH probe documentation discrepancies.
- Carried out 5S and kanban implementation program with team members in cell culture suite.
- Conducted thorough reviews of documentation, ensuring regulatory compliance.
- Submitted Dakota reports for numerous workplace safety issues and implemented changes.

Unit Nurse	02/2015 to 03/2022
MONTANA VETERANS HOME	Columbia Falls, Montana

- Administered medications and treatments in skilled nursing and memory care environments.
- Ensured that infection control and patient safety standards were met.
- Proposed improvements based on observed changes in patient conditions.
- Performed charge nurse duties when requested at 110-resident facility.

Dispensing Nurse	10/2014 to 02/2015
COMMUNITY MEDICAL SERVICES	Kalispell, Montana

- Educated patients on medication adherence and side effects to promote compliance.
- Managed patient records efficiently using Methasoft for enhanced accessibility.
- Monitored dosing of patients and collected samples.
-

Unit Nurse BRENDAN HOUSE	06/2009 to 08/2013 Kalispell, Montana
• Provided comprehensive nursing care to patients, ensuring adherence to treatment plans. • Collaborated with medical staff to assess patient needs, and develop care strategies. • Monitored patient progress and maintained accurate health records to support clinical decisions. • Implemented best practices for aseptic technique and medication management.	
Unit Nurse DISCOVERY CARE CENTER	10/2007 to 05/2009 Hamilton, Montana
• Administered medications and treatments accurately and in a timely manner. • Collaborated with medical staff to provide quality, continued care. • Delivered patient care in compliance with DHS and CMS standards.	
Lead Manufacturing Associate GLAXOSMITHKLINE	05/2007 to 10/2008 Hamilton, Montana
• Lead associate role responsibilities within the manufacturing suite, managing inoculation, bacterial fermentation, cell harvest, and diafiltration in stainless steel vessels. • Initiated and resolved deviation and CAPA reports promptly. • Conducted workplace risk assessments and implemented ergonomic and fall hazard safety improvements as the environmental health and safety liaison.	
Manufacturing Chemist INSMED THERAPEUTIC PROTEINS	08/2004 to 08/2005 Boulder, Colorado
• Lead role in clinical drug lot manufacturing, focusing on the fermentation and purification of i-plex recombinant protein for human growth insufficiency syndrome. • Initiated pilot studies on process buffers, optimizing pH titration for streamlined buffer preparation. • Managed assessment project for pH and dissolved oxygen probe monitoring, enhancing measurement tracking and reducing probe failures by eighty percent. • Participated in validation projects for stainless steel fermentation vessels.
