

Robert Cohen

Welder

Denver, CO 80128

robertcohen56_ib7@indeedemail.com

+1 303 763 0593

Certified MIG, TIG, and Fluxcore welder, with one year experience working from blueprints to finishing in a fabrication shop. High attentions to detail and procedures resulting in solid fabrication and seamless repair work. Comprehensive understanding of various welding procedures and alloys.

Authorized to work in the US for any employer

Work Experience

Fabricator

Central Denver Ironworks - Denver, CO

March 2019 to March 2020

D1.1/structural welding

Steel/Stainless/Aluminum

CDI's fabrication team worked on primarily large stainless structures and several rail jobs during my time there. As primarily a welder I would weld and clean work pieces, maneuver large work pieces and materials with cranes, and I was able to work fit up for several rail jobs.

I had a CWI ultrasound test 3 baseplates, with no repairs necessary. The plates were inch thick and each attached to a 1'x1'x 12 foot I-beam roof support.

Ramp Agent

Simplicity USA - Denver, CO

April 2017 to July 2017

While at simplicity, I covered whatever areas were understaffed. This included running bags to planes, getting planes refilled with food/drinks, and unloading/uploading aircraft. Due to my school schedule and Simplicity being able to schedule part time I had to resign. Before my two weeks finished I ended up scheduled for roles I didn't have the training to complete, so I had to resign before my two weeks.

Back of House Team Member

Fourteen Seventy-Two - Denver, CO

February 2016 to October 2016

Preparing food, washing dishes, making salads and dressings, and cooking dishes.

Education

High school diploma in CAD and Welding

Community College of Denver

August 2017 to April 2021
