

# Robert Procunier

## Assembler

### Contact

2535 Sunset Dr. Apt. 255  
Longmont, CO 80501  
720-597-0327  
rlprocunier@gmail.com

### Objective

Medical, mechanical, electronic, or other assembly.

### Education

Colorado State University Fort  
Collins, CO  
BS Mathematics, MS  
Mathematics

### Experience

*August 16 2012 - August 15 2021*  
Assembler I • Medical device assembly • Medtronic, Boulder

*February 2012 - August 2012*  
Various tempory postions.

*April 2011 – February 2012*  
Assemmbler • Medical Assembly • Spartan Medical

*July 2005 - April 2011*  
Various tempory postions.

*March 2000 – July 2005*  
Assembler • Electronic assembly • Celestica, Fort Collins

At Medtronic, I worked on five different lines at various times assembling as many different surgical handsets. On each line I rotated through several stations involving a different portion of the handset and placing the appropriate parts. This included placement of wiring, surgical blades, laser welding jaws, sonic welding plastic body halves together, automated funtional testing, operating machines to correctly place pins, springs, jaws and jaw wires, and cleaning and packaging of finished product.

At Celestica, I did hand placement of electronic parts on circuit boards, hand soldering, and soldering by by Softbeam and Electrawave machines.

## Key Skills

Great hand eye coordination.  
The ability to follow directions.  
Work safely and quickly.  
Good attendance.

## Communication

For several months I trained newhires on the Impact 18 line.

## Leadership

I lead by example, doing high quality work by following the work instructions rather than cutting corners.
