### **Foreman**

Instant Rain (residential irrigation)

March, 2010 — August, 2015 (5 years 5 months)

I was the irrigation tech, installer and foreman. I handled repairs, pulling pipe and wire with the ditch witch. Boring under driveways and sidewalks, reading the blueprint to install new systems. I had 2 titles in 2 companies but they were technically both Keystone Landscaping. They were both owned by one guy and ran from 1 shop. I just did both jobs.
