+1 720 519 5640

I have worked in industrial maintenance for 5+ years. My main goal is to become a maintenance supervisor/maintenance manager and expand my knowledge of industrial maintenance.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Sr. Maintenance Technician

Honeywell - Aurora, CO

September 2021 to Present

My job duties were to examine repair and prevent certain maintenance problems with the installation of the conveyors, motors and gearboxes associated with Honeywell installation team I was also responsible with providing the customer with daily system checks and reports on their conveyors that have been installed and turned over to my team for preventative maintenance and repair through out my time on site at Shamrock Foods distribution center.

Maintenance Technician

Momentum Recycling - Lafayette, CO

April 2021 to August 2021

At momentum recycling my main duties as a maintenance technician include but not limited to. Any and all maintenance in the plant such as.

- Diagnosing plc
- Repairing conveyors/belting/splices/saddles
- Repair and replacing return rollers/idler rollers
- Welding holes in transitions/shaker tables/chutes/air tubing/cyclone tubes
- Preventive maintenance/PM's
- Most plc diagnosing were tracing and replacing wires/splices/daisy chains along with power sources and breakers
- Clarity machines
- Cyclone systems
- Trenzo systems
- Mag belts
- Finders
- Compressed air systems
- Dryers/ compressors

Night Maintenance Supervisor

ALL RECYCLING INC. - Englewood, CO

December 2019 to April 2021

Night maintenance supervisor at All Recycling had a variety of duties. I was in charge of an 11 man maintenance team. My duties included dispersal of this team to designated areas of the yard that requires maintenance. And or preventive maintenance, such as checking slack of belting, rollers, tail pulleys, head pulleys, excessive buildup around moving parts, and to also make sure that the maintenance was done in a timely yet safe manner adhering to all osha safety guidelines. I was also in charge of special projects and had my own list of preventive maintenance that I needed to do, like the installation of plc's, any new belting or machines going in or coming out of the plant, along with assisting and directing outside contractors to designated working areas or problems in the plant.

Night Maintenance

ALL RECYCLING INC. - Englewood, CO

June 2019 to December 2019

Night maintenance position taught me an array of different mechanical encounters. My job duties were to recognize and determine the cause and solution of such things as.

- Conveyor systems ranging from a few feet to a few miles worth of belting
- Plc's to determine lack of power to faulty breakers and emergency faults
- Break downs and rebuilds of motored gearboxes
- Installation of bearings, head pulleys, tail pulleys, bearings, shafts, idler and return rollers as we as wipers and skirting
- 480V
- Three phase
- Cyclone systems
- Fogger systems
- Eddy current systems
- Break downs of eddy current magnets, eddy current shell replacement
- Eco Star shaft replacement and maintenance
- Finders, sorters and clarity's

Aspirator operator

ALL RECYCLING INC - Englewood, CO

January 2018 to June 2019

My position as aspirator operator was a fast paced job that required extreme attention to detail. Sorting through recycled aluminum to pick out any debris or non ferrous items to ensure clean recycled aluminum. The material was then weighed and shipped out after inspection.

Dispatcher

Oreilley's Auto Parts - Denver, CO

January 2017 to January 2018

As dispatcher for Oreillys I was designated with proper dispersal of parts orders that came in via a computer or telephone. Meaning I had to lay out the orders as they came in, to efficiently disperse my drivers as well as possible to insure all parts were delivered in a timely and safe manner, and to prevent orders from backing up, in the event of too many orders coming in and not enough going out I was also required to fill in a deliver parts as well.

Parts Driver

Oreilly auto parts - Denver, CO

October 2015 to January 2017

My position as parts driver for Oreilly auto parts is as it sounds. I delivered parts from the hub to our commercial customers. I also picked up any and all returns along with account checks/passed due amounts for automotive parts.

Eddy current operator/Shredder operator

WESTERN METALS RECYCLING - Englewood, CO

September 2010 to September 2015

My work experience at Western Metals Recycling running the eddy current and shredder, relied on specific mechanical and electrical knowledge such as.

- Diagnosing VFD in the eddy current along with PLC diagnosing whether it be faults tripped breakers or a faulty VFD's.
- Running and maintains both the mill and the eddy current required both physical maintenance and electrical maintenance on vibratory sensors, mill bearing temp sensors, motorostics, and thermal imaging cameras and thermal sensors.
- Other skills I have acquired are knowledge of belting conveyors, belt splicing, belt saddles, tail and head pulley tear down and installation, along with return rollers cradle rollers and E-Stop rope switches and buttons.

Education

High school or equivalent

John F Kenedy

2006 to 2010

Skills

- Forklift Operator (5 years)
- Maintenance (5 years)
- Welding (3 years)
- Skid steer operator (5 years)
- Loader Operator (2 years)
- General Laborer (2 years)
- Heavy Equipment Operation (1 year)
- Sensors (2 years)
- Groundskeeping (Less than 1 year)
- Mechanical knowledge (5 years)
- Hand tools (5 years)
- Industrial maintenance (5 years)
- Fabrication (2 years)
- Automotive Repair (5 years)
- Equipment Repair (5 years)
- Programmable Logic Controllers (5 years)
- English (10+ years)

- Power tools (5 years)
- Supervising experience (1 year)
- Industrial equipment (5 years)
- Leadership (1 year)
- Conveyor installation (5 years)
- Calipers (5 years)
- Micrometer (5 years)
- MIG welding (2 years)
- Management (1 year)
- Mechanic experience (5 years)
- Schematics (5 years)
- Project management (1 year)
- Electrical experience (5 years)
- Hydraulics
- CMMS
- Stick welding
