Work Experience

Physical labor/ mix sealant and Adhesive/ forklift driver

Hercules Industries - Denver, CO

April 2022 to Present

So we start at 5 am Monday thru Thursday, Friday is all OT. As a mixer you follow the data sheet and add the right amount of latex , water and all types of chemicals that the sheet indicates it's all pounds. So we mix 3 batches a day. We pack all batches and we send them off to the warehouse. We use the forklift to move the tanks around and to move material around .We lift form 25lbs to about 50lbs a day sometimes more . Awesome company but I'm ready for something different.

Maintenance/ make ready tech

January 2019 to 2020

As a make ready tech you make sure a unit is ready to go when the new resident is ready to move in. So that means you clear the unit out you make a few repairs such as plumbing a bit of electrical replacing all the blinds some painting just anything you see is broken or in bad condition.

McDonald's

January 2018 to January 2019

to make

drinks how to take orders a lot of cleaning. After a couple months they promoted me to a crew trainer where I would train all the new staff cool first job.

groundskeeper

The liberty group

01/2019 - 2020

As a groundskeeper your responsible for the overall look of the property. You make sure no trash is laying around make sure all your trash cans are empty. All your hallways are clean neat. All the glass windows are shining.
