Work Experience

Career Mechanic

ARCOSA - Boulder, CO

September 2019 to Present

Ability to quickly diagnose, repair, and troubleshoot machinery. Able to quickly make decisions regarding the importance of repairs so as to get the factory producing materials as quickly as possible. Am able to work with little to no direct supervision and find and repair problems first using the resources available to me instead of making unnecessary purchases when the materials are already at the plant. Am able to give direction to co-workers so that they can be working on other problems and we are getting twice the work done.

Production/ Warehouse Maintenance Mechanic

The Allen Company

November 2017 to May 2019

Tasks: Diagnose and repair issues with industrial manufacturing machinery. Repair and troubleshoot any mechanical issues arising on any of the properties owned by the company. Landscaping, sprinkler repair, general maintenance, electrical, air conditioners, plumbing.
