SLS Plumbing
Clarkston, MI 48346

From: 09/02 – 11/05

Title: Plumbers Apprentice

Duties: Measuring, cutting, fitting, sweating, bending, running priming, gluing and securing copper, galvanized/copper/PVC and gas line pipe. Installing sinks, faucets and all other domestic and drain fixtures for residential and commercial plumbing needs for new construction and remodels or upgrades. Digging and laying weeping tile drains for sump pumps and drainage systems in foundations. Trouble shooting and repair work on residential plumbing. Reading and following blueprints for construction of plumbing and boiler construction. Using a variety of hand tools and power tools to achieve results for day to day duties and jobs accomplished. I became proficient with measuring tools and excelled at identifying the fastest way to accomplish a task with the right tool. I enjoyed the problem solving aspect of finding a mutual agreement with other tradesman when a situation occurred that was not outlined in the blueprints and schematics. I learned a lot from this job and carried that knowledge into my future employment.

Reason for leaving: The company downsized drastically due to economy and slow down of construction industry. Unfortunately, it eventually went out of business.
