Work Experience

Repair Technician II

Vestas American Wind Technology - Brighton, CO

September 2017 to February 2021

I started off in my Vestas career as a production worker in the Finish Department. From there I moved from a production worker to a Crane position for a small period of time. After my Crane position I moved to a Repair Technician. From there I spent the rest of my 4 year career with Vestas.

I know how to work with grinders, sanders, cutters and drills.

I know how to work with measurements, ratios, and percentages.

I worked in dusty environments and am familiar with wearing respirators and working in confined tight spaces within a long period of time.

I am familiar with working with very hazardous or deadly chemicals.

I can read Danish Blueprints.

I've Worked with different types of Glue machines or Resin machines.

I am familiar with working in big groups or alone.

Have lead or taught new employees.
