## Experience

### Applewood Plumbing Heating & Electric

2016/09 - 2019/05

Driver/Warehouse Associate • Denver, Colorado

Responsibilities were to respond to emailed ordered parts sent in through email by technicians (Plumbers, HVAC, & Electricians). Gather in stock items, load them in company vehicle box trucks and vans. If parts were out of stock or a specialty part needed, my responsibility was to pick up the parts at various vendors assigned by our dispatch team and deliver them to the technician as assigned. On down time we operated daily warehouse assignments. Including:

Fixing and Maintaining Plumbing equipment for Plumbing Techs. Stocking Shipments delivered to our warehouse. Taking Company Vehicles for maintenance, such as Oil Changes, Dropping them off to authorized Dealers for engine or body detail, Helping Technicians keep a clean workspace and environment by removing any trash and scrap at job site, Inventory and Stock Company Tech Trucks.
