April 16, 2013

To whom it may concern:

I am contacting you concerning the Wind Turbine Technician career opportunity your company has presented. I am highly interested and certain I am qualified for the position.

While attending the Wind Turbine Technician Academy at Kalamazoo Valley Community College I have become BZEE certified and competent in all aspects relating directly to wind turbines. I have done service and maintenance on a NEG MICON 900, and a 2.5 MW FUHRLANDER FL2500 that include knowing how to safely work with: hydraulics, high voltage, PLC's, hands on mechanics, and work at heights.

Upon graduating in June, 2013, I will be anxiously ready to begin my career as a Wind Turbine Technician and hope to hear that I will be joining your company's team of technicians.

Please feel free to contact me at any time. Thank you for your time and consideration.

With Anticipation,

Paul R. Rottarr
