I have over three years in manufacturer logistics as a new higher trainer at Federal Express. I have handled and unloaded over a hundred thousand dollars worth cargo under a timely schedule. I am a dedicated on time person because I value other people time. I have received employee of the month four times in a row because of my outstanding attendance. I believe in getting things done right and on time even if I am under pressure. I wish to obtain a position in which I can utilize my skills and knowledge learned to become a great asset to your company.

Willing to relocate: Anywhere

Authorized to work in the US for any employer
