Additional Information

I have experience with 2d and 3d modeling in both Onshape and autodesk inventor. I have experience working with a cnc router, a cnc mill, a 3d printer, and a precision lathe. I also have a solid understanding of g-code and am able to edit or write my own. I also have strong mechanical knowledge and understanding. I have done 2 full engine rebuilds, and am able to perform standard maintenance procedures such as oil changes, break pads and rotors, and changing tires. I have lots of experience working with both power and hand tools, and am also able to perform PDR.
