Authorized to work in the US for any employer

## Work Experience

---

### **Owner/Operator**

Portraits of the Rockies LLC - Fort Collins, CO  
October 2013 to Present

Landscape/nature photographer

Sears Trostel Lumber and Millwork  
November 2015 to September 2017

- \* I operated a gang rip saw and logged material out, much like I did and Genesis Innovations.
- \* I ran forklifts to pick up units of lumber.

### **March 2013-October 2013 Materials Handler/Machine Operator**

Genesis Innovations, LLC  
July 2004 to April 2012

- \* During my experience I operated a Weinig gang rip saw, Weinig moulder, Weinig knife grinder as well as single and dual surface planers, jointers, table saws, wide belt and hand held sanders, glue wheels, forklifts and a panel saw.
- \* I started at the bottom as a temporary employee with no experience and was a primary machine operator within 3 months and continued to work my way up from there.
- \* I was responsible for interpreting work orders and seeing them through my department, catching mistakes and correcting them before releasing the work to the next department.
- \* I also performed inventory and cycle counts on in house lumber and determined if I had enough lumber to complete each job, putting in orders for more if needed.
- \* Coworkers often sought my guidance with issues they had involving materials and paperwork and I would seek solutions promptly, being at the head of my department with the most skills and experience.

## Skills

---

CYCLE COUNTS (7 years), INVENTORY (7 years), WOODWORKING

## Additional Information

---

### SKILLS PROFILE:

- \* 13 years experience handling materials with forklifts, manual pallet jacks, and scissor lifts

- \* Experience with various woodworking machinery including rip saws, moulders, planers and sanders.
- \* Recorded quarterly inventory and cycle counts in a lumber warehouse.
- \* Experience in learning paperwork and identifying mistakes in order to create the proper work per order.
- \* Maintain attention to detail and focus without compromising safety regulations.
