## Work Experience

---

### **Solid control technician**

Diamond T Services - Wyoming  
October 2021 to Present

Processing cuttings from drilling rig through centrifuge & VCD. Mix off cutting into 3 sided bins. Operate loader & excavator for mixing cuttings & loading up trucks. Dewater water base mud & process oil base mud. Troubleshoot problems with equipment & do daily maintenance on equipment.

### **Service Tech/Installer**

Murray's Garage Doors - Loveland, CO  
February 2021 to Present

Take calls from customer to set up a appointment. Show up to customers home to do initial walk-through. Order/pick-up parts for customers job. Return at later date with parts for job. Do final walk-through to see if anything was missed from first walk-through. Instal/ repair to customers satisfaction. Show customers finished product & sign off on paperwork

### **Foreman/Supervisor**

Lynn Cunningham Appliance - Longmont, CO  
December 2020 to February 2021

Show up with crew before truck is there to have safety meeting about the day & the job. Talk with site supervisor to get a game plan for the day. Unload product from semi truck. Organize product for later when moved. Do a count to make sure all product is accounted for. Have crew disperse product to proper place. Push crew to meet dead line for the day. Go over all paperwork for the day & make sure everything is perfect. Have end of day meeting with site supervisor. Turn in paperwork at end of day

### **Evaporation engineer**

Skagen Energy Services - Monroe, LA  
July 2020 to November 2020

Provided all services required for on site evaporation disposal. I would operate, monitor, maintain and provide the technical support required to keep the units running effectively. I used hot exhaust gas to drive the evaporation and direct absorption to transfer the heat. The overall effect is 95% thermal efficiency and a wide range of fuel flexibility. The evaporation systems ran a proprietary stripper system that removes light hydrocarbons, methanol, ammonia and H<sub>2</sub>S. I would sample an introductory water chemistry analysis test and perform operational adjustments and unit surveillance/troubleshooting. Ensured unit maintenance such as pump seal replacement, lubrication, demister cleaning and fixing any other parts effecting operating performance

## **Lead operator/ CLO2 operator**

Bosque Systems - College Station, TX

April 2019 to February 2020

- Check incoming water from trucks for acceptable levels of solids and fluid type
- Complete JHA for every shift and include everyone on-site
- Ensure daily operations are compliant with EPA and OSHA regulations
- Record data from truck tickets on daily log and maintain accuracy
- Conduct hourly walk around to check meters and gauges on equipment
- Make sure daily operations is in compliance with EPA and OSHA regulations
- Verify that all equipment is running properly and notify management if there are issues
- Maintain daily housekeeping at the worksite
- Provides customer service
- Follows proscribed procedures with alterations, informing supervisor promptly; assuring that you stay on location at all times to maintain oversight of the facility.

## **Field Technician**

WaterFleet, LLC - Midland, TX

May 2018 to April 2019

Work with a crew of 3-6 who are responsible for delivering the water “rigs” to customer sites, setting them up, tearing them down, switching them out and performing basic maintenance. • Interact with co-workers, and customers. • Monitor performance of the systems on the water rigs and coordinate basic maintenance with crew leaders and monitoring techs.

## **Value tech**

Jaguar Energy Services - Shreveport, LA

October 2017 to March 2018

Tore down, repaired, and tested various valve types used in the oil and gas industry  
Assembled equipment based on customer sales order; complete assembly according to requirements and safety rules / regulations; completed assembly documentation  
Operated painting equipment; fully understood painting safety and environmental regulations.  
Worked within a team environment to efficiently and effectively deliver customer requests and business goals

## **Assistant Manager**

Zips Carwash - Shreveport, LA

January 2017 to September 2017

Ensured car wash quality standards  
Managed overall vehicle flow and production in car wash operation and ensured car wash compliance with government standards  
Conducted safety training and meetings and performed opening and closing duties  
Maintained car wash equipment, managed inventory of chemical, towels and other supplies  
Managed and maintained employee timecard to ensure accurate payroll  
Maintained accurate records and reporting to achieve profitable goals  
Performed essential duties and responsibilities for all car wash employees
