Talented Production Worker offering 15 years of experience in warehouse and manufacturing environments. Focused on being productive and safety-minded at all times.

## EXPERIENCE

**3/2017 - PRESENT**

### **PRODUCTION LEAD, TREEHOUSE FOODS**

- Delegated tasks to employees based upon individual strengths and experience on different machines.
- Monitored employee performance and safety, conducting retraining to correct problems and optimize productivity.
- Addressed employee and production issues to determine and implement optimal resolutions, preventing wasted resources and maintaining schedules.
- Set up, adjusted and maintained machines to keep production operating at peak levels and consistently meet challenging daily demands.
- Planned and updated work schedules for optimal coverage of expected business needs.
- Guided and supported 15 staff members to consistently achieve team and personal goals.
- Organized and updated schedules to optimize coverage for expected customer demands.

**9/2016 - 3/2017**

### **ORDER FILLER, KROGER**

- Monitored aisles and floor areas for neatness and organization to enable forklifts to effectively operate throughout warehouse.
- Used forklifts, pallet jacks, hand trucks and overhead cranes to move items throughout facility.
- Packaged items with appropriate materials to prevent damage during shipping.
- Kept work areas clean, neat and organized for optimal productivity and worker safety.
- Stacked, organized and palletized packages for efficient storage and movement.

**7/2008 - 9/2016**

### **BAGGER OPERATOR, CARGILL SALT**

- Packaging line operator running a machine that puts water softener salt

into bags and then onto an automatic palletizer.

- Arrange machine at the beginning of work procedures to ensure that everything is in order.
- Perform weekly preventative maintenance inspections to ensure proper working order of machine.
- Test the machine before main work begins to be sure that it's in good condition for production.
- Clean up machine parts after every work procedure.
- Set all machine operation information such as speed, size and shape into machine before it begins running.
- Insert all production materials in the various parts of the machine where they are supposed to be to enhance production output.
- Ensure that machines are calibrated and recalibrated before and after production procedures.
- Troubleshoot machine problems to determine actual faults.
- Ensure good quality work.

## **EDUCATION**

**JUNE 1998**

**HIGH SCHOOL DIPLOMA, MOUNTAIN HIGH**

## **SKILLS**

- Quality
- Repairs
- Safety
- Troubleshooting
- Equipment Maintenance
- Process Improvements
- Problem Solving
- Forklift Operation
- Multitasking and Prioritization
- Equipment Operation
