I'm a flexible, hardworking adult with a year and a half of assembly experience and several years of auto mechanic experience. I am a quick hands on learner who is always willing to try new things and explore new concepts. I ask lots of questions to try and fully understand these new concepts.

Additional Information

I did not leave Kuck Mechanical on the best of terms I left because I was not being treated with dignity or respect by my foreman. Me quitting so abruptly is not a good reflection of my work ethic or character.
