

# Hello My Name is

## Saul Favela

1560 Ash Court Thornton, Co

720-503-1806

saul.favela.7370@gmail.com

Hello my name is Saul Favela and i am currently seeking for a job that can work for a long term beneficial opportunity!

- I am fluent both English and Spanish, so communication has never been an upcoming issue for me.
- I am a High school graduate, so full time job(Including Overtime) is no problem for me!.

### Skills

- I can say I have excellent analytical skills, reasoning with someone is always very important that they understand me
- Very cooperative with my team, if help needed i will set an appropriate time to help out or on command!
- My communication and is what defines me as a great employee because that just makes the customer or employer a way to communicate.
- I would say my (learning skills/Attention to detail) are Good like any average person, don't consider myself better than others.
- I like to keep myself moving around some to keep me moving!
- Like to keep my space clean, put my material where I know I can reach with ease!
- Verbal Communication is good it always varies on who I talk to! Someone is always going to be different.

### Experience

- Demonstrate great communication and work value on projects or any obligation I am given too.

### Work History

- I've Had numerous jobs mainly on heavy labor but I do have some that I am better then my other occupancies.
  1. Car Detailer is some I have acquired with my Dad all my life, worked in numerous carwashes and airport parking for car detailing! Also know a thing or two about maintenance in cars not a car geek either!
  2. In construction I've worked in Big Concrete projects including driveways.
  3. TPO roofing was another job, I was able to finish about three projects with them!
  4. Insulation from exterior to interior of the building is my specialty involved platforming and cutting ,filling ,spraying armor seal. Sheets are only 8ft by 4 always easy to work on! Scissor lift and boom lift was the machinery I would use to reach certain levels for installation.
  5. Carpet installation and removing was the last job I had with my uncle! Involved padding ,measure cuts for rooms ,stretch carpet, glue down was included!
  6. Worked in a couple customer service jobs through out time! For example Quiznos ,Golden Corral ,Chipotle. Involved Dish Washer, Prepping, Sometimes cooking!

Many of these jobs made me acquire skills in many concepts. I'm sure that I can work on anything if I'm given the correct team! Heavy Lifting is something I have always encountered through out my life can't really complain. If I wasn't able to than many characteristics/insults would be put upon me ,it sure never stopped me!

## Extra-Curricular Activities

- As I had mentioned before detailing is way to make money. So having to clean a car is something everyone is to lazy to do but quick enough to pay for a good job.

My Father owns a tow truck and in common occasion I help along. Driving cars for testing or to get them to one place and another is common. Inspect around and driving the car gives us the solution on whether we improve for sell or junk.

## Education

Pathways Future Center School      Thornton, CO  
*High School Graduate*
