## WORK EXPERIENCE

---

### Lab Technician, Jerry Harvey Audio

June 2023 – May 2025

- Proficient in the complete manufacturing process of in-ear monitors, from raw impressions to final product.
- Worked within other departments to help develop new products and procedures, as well as working with the production team to implement these new features and procedures.
- Trained new employees, and trained seasoned employees on new responsibilities.
- Helped developed, and then was in charge of production of multiple lines universal-fit models.

### Welder & Fabricator, TRZ Motorsports

November 2018 – April 2023

- Full metal shop experience using various fabrication machines including mills, auto-feed saws, bending and notching equipment.
- Experience operating and programming CNC mills, lathes, and plasma cutters.
- TIG welding mild steel, stainless steel, chromoly, and some aluminum.
- Communicated with management concerning consumables and produced inventory levels to ensure max efficiency in production.
- Operated forklifts for loading and unloading trucks, and tight-space operation inside the shop.

### Lab Technician, Jerry Harvey Audio

March 2013 – October 2018

- Proficient in the process of hand-making high-end bespoke headphones, from raw impressions, to final product, with everything in-between.
- Exhibited and upheld high quality control standards, while ensuring production efficiency.
- Utilized many fabrication tools, such as UV cure ovens, 2D plotting software, laser cutters, dremels, airbrushes, and more.

### Receiver / Customer Service Associate, Lowes

May 2010 – March 2013

- Provided customers with great customer service, answering technical questions in my relevant department.
- Maintained a clean, organized, and well-stocked department.
- Operated all power equipment on property, to achieve tasks such as loading/unloading trucks, and stocking shelves.
