employees provide instructions on the loading and unloading of chemicals ensuring the correct mix and quality of chemicals control the pallet and packaging machine to ensure the finished product are stacked properly and

labeled correctly including the correct material safety data sheet communicate with colleagues from the previous

shift to determine if problems existed with chemicals scale car or how the line is running process chemicals

products using A batch sheet instructions and safety

Education

High School Diploma

West Technical High School - Cleveland, OH

1993

Skills

- POLYMER (3 years)
- FAST LEARNER (Less than 1 year)
- POLYMERS (Less than 1 year)
- Machine Operator
- Manufacturing
- forklift
- Plastics Extrusion
- Warehouse Experience
- SAP
- Computer Networking
- Materials Handling
- Quality Inspection
- Quality Assurance

Certifications and Licenses

Forklift Certification

Additional Information

Skills

A fast learner Highly dependable

Excellent attention to detail

Knowledge of [Polymer name] polymers

Skilled in machine operation

Set up and breakdown of machines
