12 years' experience

Companies: Elkhart Plastics

Textured Forest Products

Duties: Adecco Temp Services/@Woodward Governor Fort Collins, CO

This position involved filing work orders and picking numerous and varied parts for aircrafts. The orders were filled by using a cart and continuing to gather and fill as many orders as possible throughout the shift while also doing comprehensive work on the computer for consistent logins. The orders were then transported to various holding stations. This was a fast-paced position and was a minimum of 55 hours per week with mandatory Saturdays.

Duties: Bethesda Lutheran Fort Collins, CO

This position involved giving direct support to clients while also cleaning, passing food trays and transporting clients daily. The duties were to complete support plans and assist the residents to have an independent a life as possible. The job involved heavy lifting with clients in wheels chairs and continually maintaining the safety of each individual.

Duties: Elkhart Plastics Ridgefield, WA

This was a position in which I did detailing of large polyurethane parts and fixing blow holes in the heavy fabrication department by using heating torches. This included using pneumatic, as well as sharp hand-held trimming tools, in a fast-paced work environment. This also included using drills and lots of

assembly before final inspection. Parts were assembled using bolts to fasten into inserts. The position involved transporting parts to shipping department with fork lifts and pallet jacks and assisting with loading trucks.

Duties:                      Textured Forrest Products                      Washougal, WA

This was a position involved in making diverse types of siding out of plywood. This involved stacking the plywood at a fast pace on stickers after going through the different machines to assembly. The parts were then moved to the holding area until loaded onto trucks. The position involved using pneumatic hand tools for removing knots and filling the holes. The also involved transporting the parts when needed with the fork lift or pallet jack and loading trucks.
