Professional Summary

I have been a class "B" trucker driver for the past 18 years for two companies. This has helped me build extensive knowledge of all cities within Minnesota, which helps me be an extremely efficient trucker driver while maintaining great customer service. I have been a licensed forklift operator throughout this entire time as well. While doing all this you learn how to load and unload a wide variety of equipment efficiently and safely. Not only have I learned to maintain a great client experience but throughout career I have been a good coworker and work well in group collaboration settings.
