## **Johnson&Johnson now Jabil at Synthes site**

Colorado Springs, CO 80909

[shammiradaly@gmail.com](mailto:shammiradaly@gmail.com)

7193540083

Too many people lack great work ethic and aspiration, I'm NOT one of them. My greatest attribute is attention to detail, whether it be in checking numbers, for mistakes, and/or flaws. When something is broken, I'm one to try to fix it or to see a more efficient way in doing things. Positivity, ability to work well with others and communicate is also what I bring to the team. Will ask questions if I dont know or if I want to know. Thats how I learn and commit less errors to better myself. Always room for improvement and I'm willing and more than eager to learn.

Authorized to work in the US for any employer

## Work Experience

---

### **Packaging Operator**

JABIL NYPRO - Monument, CO

April 2019 to Present

Packaging is the last department the product goes through before being sent off to the customer.

1. I'm cross trained in many of the different positions in my department from;

- finale inspection,
- thermal unload,
- assembly,
- pouching and boxing.

2. My ability to find flaws and double check myself and others from paperwork to the product itself makes sure we do NOT commit mistakes,

3. ensures quality to get to the customer as soon as possible.

### **Finishing Operator/ Anodize**

Johnson & Johnson - Monument, CO

September 2018 to April 2019

- Specializes in sterilizing nails and screws plates that go into a patient when undergoing surgery.
- Work with various chemicals and work by the 5s rules.
- Inspect the parts and make sure all paperwork and lots match.
- Wrapped to send off to the customer.

## Education

---

### **Pikes Peak Community College in Advanced Manufacturing**

Pikes Peak Community College - Colorado Springs, CO
