Work Experience

Material Handler

Clopay Garage Doors - Mendota Heights, MN

June 2019 to November 2019

At Clopay I was responsible for assisting in the receiving of products coming in and going out of the distribution center. I was also responsible for sorting and organizing the work space and pick orders. I used inventory tools such as scanners.

Material Handler

AMERICAN LOGISTICS SERVICES LLC - Cottage Grove, MN

November 2018 to February 2019

7900 97th St S, Cottage Grove, MN 55016, (952) 378-4581 (Midwest Staffing Group)

Material Handler

- At ALS I picked orders using a Raymond order picker forklift. I also unloaded trailers with sit-down forklifts and built pallets to be shipped. I also used scanning guns and computer software to perform inventory tasks.

Material Handler

ILLUME HOLDING COMPANY Inc - Bloomington, MN

2017 to 2018

At Illume I was responsible for receiving any and all raw materials and finished materials that came in. I worked with scanning guns and computer software to perform tasks involving inventory, quantity calculations, etc. I also used sit-down forklifts and Bendi forklifts to perform most warehouse tasks.

Installer

CEDAR CROSS INC - Hopkins, MN

October 2016 to May 2017

At Cedar Cross Inc. I was responsible for doing installs and repairs to shades, blinds, and shutters at residential and commercial sites. These tasks involved knowledge of and experience with power tools, measuring devices, and hardware of all kinds. Many of the blinds I installed on commercial jobs were motorized so knowledge of electronic devices and wiring were also used while I was with Cedar Cross. I was also responsible for general maintenance and cleanliness of work spaces both at job sites and at the shop.

Injection Mold Operator

PHILLIPS-MEDISIZE - New Richmond, WI

February 2015 to April 2015

While at Phillips-Medi size my duties were to check newly made products for quality and also make sure jobs operated on time. I used various tools to check plastic parts for quality in color, thickness, texture, etc. I also had to make sure parts were being made within the time allotted. Documenting every job and part was a crucial part of my duties for these parts were to be used in the medical field. I was also trained in clean-room procedures.

Warehouse Associate

BEST MAID COOKIE COMPANY - River Falls, WI

July 2014 to August 2014

At Best Maid I was responsible for taking boxes and pallets of freshly made cookies and putting them into orders to be shipped in the future. I used computer software and UPC scanning tools to categorize the boxes as well as find space in the freezer for orders going out in a time longer than an hour.

In-home Living Specialist

HAVE-A-HEART INC - River Falls, WI

April 2010 to August 2014

At Have-A-Heart Inc. I worked at their group home (Clarke Damon Villa) as an In-home Living Specialist. My duties included performing bathroom/hygiene cares, bedroom/dressing cares, kitchen and food preparations, transferring clients in and out of wheel chairs as well as helping other clients get around however needed. I was also responsible for giving medications as well as ordering medications if necessary.

Packer

GENERAL PLASTICS EXTRUSIONS INC - Prescott, WI

April 2009 to August 2009

1238 Kasson Rd. N Prescott, WI 54021, (715) 262-3806, Plant Office.

Plastics Extrusions Industry

- During my time at General Plastics I was responsible for packaging products, product quality, making sure production continued without problems, and general cleanup. As a packer I was the first person to handle the plastic bags and was responsible for making sure the bags met the customer's specifications for length, width, and thickness as well as making sure the products got shipped correctly.

Shipper/Receiver

SPECTRO ALLOYS CORP - Rosemount, MN

January 2008 to March 2009

13220 Doyle Path Rosemount, MN 55068, (651) 437-2815, Plant Office.

Secondary Aluminum Industry

- At Spectro Alloys Corp. I successfully worked as a plant helper and receiver. My duties as a plant helper were to stack cast aluminum ingot, pick up and store loads of aluminum ingot using forklifts, help workers on the scrap metal shredder with clean up and feeding the shredder using a front-end loader, stage and calculate load weights, empty boxes of scrap aluminum using a forklift, and to clean work areas. As a receiver I was responsible for logging in truck loads of scrap aluminum, identifying the types of aluminum, unloading truck loads of aluminum using forklifts and skid-steer loaders, weighing and logging in loads, transferring semi trailers to be unloaded or loaded using a yard tractor, and calculating unload weights to be compared with the initial truck scale weights.

Cashier

CUB FOODS - Hastings, MN
June 2007 to August 2007

Food Retail Industry

- During my time at Cub Foods I worked, successfully, as a cashier and stock person. My duties as a cashier were to check out food items, perform financial transactions and help customers in any way necessary.
