Work Experience

Medical Assembler

Donatelle Plastics - New Brighton, MN

May 2013 to April 2019

Performing in assembling medical parts, working in the clean room, and also on the floor. Doing multiple jobs. Train new employees when they come in. More specifically, doing microscope training and defects training. Doing final inspection on parts and components that we make before sending it out to customers. Ensuring that the packages are up to size and labeled properly. Also backup lead when the lead is not available. In charge of the floor and is responsible for the workers on the shift. Moving finished parts to their correct location is also within my job responsibilities. Most importantly I check for accuracy and keep records of all components and devices I process so that it can be traceable. Have to get all components and paperwork per work instructions. Track and retrieved missing information concerning customers orders.

Picker/Packer

Staples - Arden Hills, MN

September 2005 to February 2013

Picking orders to be shipped to customers.

Education

High school or equivalent in Nursing

Hennepin Technical College - Brooklyn Center, MN

January 2010 to October 2012

Skills

Clean Room (2 years), Microscope (6 years), Medical Device (6 years), Assembly Worker (5 years), Assembly Line (1 year), Customer Service, Excel

Additional Information

I am a reliable worker. Don't take time off unless it is a dire situation. Punctuality and cooperation between coworkers is very important to me. I get along with everyone and do my job to the best of my abilities. Whatever I am assigned to do, I make sure that it's done the correct way and on time for delivery. Willing to learn new skills and conform to unfamiliar work environments given the opportunity.
