To whom it may concern:

My name Siv Ngong Choun, work at second shift. On October-20th 2022, I met an Embarrassing and so sad that my supervisor acted unacceptable maner to me and my Co-worker after break time around 6:50~7:20PM. She's yelling to everyone and shout out as we are the slave. I am working in this Company for eight years. So now I decided to transfer to ~~Home~~ 2nd north for awhile till this supervisor gone. I am strongly decide not to come back to work at my current position as long as this supervisor is here. because she is always has something against me. She also unfair to some people and goes easy with her followers. I hope she will be educated to be a real leader for future improvement to Company.
