# SKYLAR WHITEMAN

---

---

Denver, CO 80221 ♦ (720) 475-0212 ♦ weldordie1012@gmail.com

---

## PROFESSIONAL SUMMARY

---

Welder extensively trained in MIG/TIG, flux and stick welding. Experienced in crane operation and metal fabrication. Proactive in protecting components from distortion and efficiently producing high-quality work. Dependable, safety-oriented and diligent about accomplishing deadlines by applying excellent welding and fitting abilities.

---

## SKILLS

---

- Piranha iron work
- Structural welding
- Pipe fitting
- Valve repairs
- Expertise in wire feed machines
- Fast-learner
- Shaping and cutting
- Blueprints and schematics
- Standards compliance
- UCNI Training
- OSHA 10 Hour
- Safety and quality orientated
- Cutting with Plasma and Oxy-acetylene torches
- Experience with Band saws, hydraulic shears, and break presses
- Lull and shop forklift experience
- Safety management
- GTAW, FCAW, GMAW and SMAW welding experience with aluminum, stainless, and carbon metals.
- Bevel prep and fitting

---

## WORK HISTORY

---

**Welder**, 12/2019 to Current

**Davis Custom Fabrication** – empire , CO

- Inspected welds and checked whether critical measurements met specifications upon completion.
- Clamped, held, tack-welded, heat-bent, ground and bolted component parts to achieve required configurations and positions.
- Diagnosed and performed repairs for structural components.
- Operated hoists, cranes and power tools.
- Closely monitored project and material layouts and specifications to effectively cut, contour and bevel metal and structural shapes.

**Fabrication Welder**, 02/2019 to 12/2020

**Springs ATG** – Westminister, Colorado

- Bolted, clamped and tack-welded parts to secure components prior to welding.
- Diagnosed and performed repairs for stainless steel structural components.
- Welded various types of connections using GTAW FCAW and Semi-auto GTAW to complete tasks on-time and with high-quality final results.
- Inspected welds and checked whether critical measurements met specifications upon completion.
- Minimized warping by using good fitting, burning and welding techniques.
- Completed workplace safety and hazard inspections.
- Welding to a NQA-1 Standard

**Welder Fabricator**, 01/2018 to 12/2018

**Meurer Research Inc.** – Golden, CO

- Minimized warping by using good fitting, burning and welding techniques.
- Boosted team efficiency by moving materials with forklifts, cranes and other equipment.
- Coordinated team member movements based on current needs, avoiding safety concerns or delays.
- Created and deployed best practices to improve efficiency and reduce defects.
- Evaluated components and final products against quality standards and manufacturing specifications.

**Welder and Shotcrete Crew Member**, 11/2015 to 12/2017

**Eldorado Climbing Walls** – Boulder, Colorado

- Removed excess slag with arc-cutting, grinding and other equipment.
- Calibrated flow and pressure settings to build and maintain flames.
- Worked at heights up to 70'
- Welded structural foundation for climbing walls which we then shot with shotcrete, carved and painted to simulate real rock formations and colors.
-
