tepsophal83@gmail.com

9522280080

Reliable and responsible individual with 16 years experience in manufacturing and quality control, seeking to obtain a position as a Quality Control Inspector.

Work Experience

Quality Control Inspector

Diversified Plastics Inc - Minneapolis, MN

January 2016 to Present

Responsible for ensuring the smooth and safe running of the quality control department, while inspecting part components visually and dimensionally, documenting inspection results and entering data, as well as coordinating shipment of finished product.

Duties:

- Inspect parts both visually and dimensionally using micrometer, microscope, optical comparator, gauge pins, caliper, height indicator and scales according to the instruction plans.
- Perform incoming material sampling inspections according to specific plan.
- Verify documentation provided by supplier meets the requirements for incoming materials.
- Perform in-process sampling per inspection procedures and document results.
- Perform final sampling per inspection procedures and document results.
- Perform final shipment, source inspection and documentation.
- Perform lot transactions using the IQ system.
- Follow procedures for documentation and disposition of non-conforming material.
- Ensure readiness of lots for source inspection and assist source inspectors as required.
- Communicate clearly and document inspection results legibly.
- Follow applicable standard operating procedures.
