Corrugator Take Off

WESTROCK-Denver, CO

May 2022 to April 2023

Quality check the material immediately after it leaves the corrugating machine.

- Discarding the damaged cardboard.
- Labelling the good material for either in house use or out for shipping.
- Picking up corrugated paper after the machine would jam up from either the floor or inside the machine.
- Sweeping all the dust from around the machine and throughout the warehouse.Used a variety of tools, such as a micrometre and puncture resistant tester, to measure lengths of the product, along with the thickness. Then recorded the specifications into the computer.
- Used air guns to blow the dust and debris from the restricted areas of the corrugator.
