Authorized to work in the US for any employer

## Work Experience

---

### **Lead Maintenance Mechanic/ 3rd Shift Supervisor**

Carefree of Colorado-Broomfield, CO

December 2015 to February 2019

As lead mechanic I laid out daily operations for 4 mechanics and 2 janitors

to maintain smooth operation of the production line and its equipment as well as the cleanliness of the facility, I assembled a P.M. schedule as well and put it in place as there was no schedule for preventative maintenance

when I was hired in December 2015. At the end of 2017 I was promoted to

3rd shift supervisor to start a 3rd shift for the company which had never

been in place, the growth of the company had leaned towards needing a

3rd shift to restock production line product. It was determined that at this

time it was not feasible to have a 3rd shift and it was canceled for later consideration

### **Team Mechanic 3 Bottle Packaging and ACRG Mechanic**

Aerotek-Golden, CO

March 2012 to December 2015

On-call mechanic performing routine maintenance on all bottle line machinery.

Tear down and rebuilds of labelers and drop packers. Preventative maintenance on all machinery. Cover 3, 6 and 7 lines.

Bottle Packaging Operator

- Kronos Topmatic labelers, Hartness 6-12-24 drop packers, Alvey and DPL machinery
- Operate Box Shop machinery (Pierson 207 and 6 pack carton erectors and Pierson partition inserter)
- Efficient on E-Pac, EZCheck, and EIT computerized systems
- Perform quality checks on bottles and packaging materials to insure quality specifications are met
- Familiar with photo-electric eyes; make minor adjustments
- Selected to operate the Riverwood line machinery including the Negreli packer
- Perform product changeovers, start-ups and shut-downs
- Lock-out, Tag-out, Try-out Training

### **Generator Line Lead**

WANCO, Inc

2011 to 2012

As the overseer of the manufacturing line for the VoltMaster generators, responsibilities included making sure that the line was operating at 100% at all times. This required all technicians to have the necessary inventory to perform their job, to ensure work orders were filled within the allotted time frame, technician management, wiring the control panels for generators, and working alongside the WANCO engineers to build new prototypes and give personal expertise on the electrical set-up for the new generator designs for the upcoming year.

### **Lab Analyst**

J.R. Gettier for Rio Tinto Minerals-Boron, CA

2010 to 2010

In charge of daily calibration of Quality Control Scales, testing all production products for safe shipping, running Liquid Chromatography samples for Sulfates, running Boron to Water content, running Liquid Iron samples and Metallic Iron samples. Ran the production side of the quality lab ensuring that all products were in-spec for both the company and the customer.

## **Hard Parts Manager**

Pep Boys - Wheatridge, CO  
2008 to 2009

Responsible for all parts moving off the sales floor, supplying parts to the service department, supplying parts to all corporate/ business accounts, store opening and closing duties, and tracking sales and financial information that co-inside with those sales.

## **Electrician in North Annealing Maintenance**
