Work experience

Grease Monkey

December 2017 — April 2018

Lube Technician

I was a pit tech with grease monkey, I removed the drain plug for the oil to drain, while also checking for any grease fittings, checking differentials, trans axle fluids, making sure there were no major damages underneath the vehicle and if there was I reported it to my upper bay tech. I checked for leaks such as oil pan, transmission, rear main seal, differentials, cv axle boots, brake lines. I performed all differential and transfer case fluid exchanges. I would replace drain plug gaskets as needed as well as oil filters and oil filter gaskets (if required).

Larry H Miller Dodge & Jeep

September 2016 — February 2017

Lot Technician

As a lot technician my responsibilities were to make sure the dealerships lot was clean and organized. I would straighten out vehicles on the lot to look presentable to customers every day looking to buy a vehicle. I was responsible for closing down the lot making sure there was no empty spaces for people to break in and locking all gates at night. I was also required to help the detailer with car deliveries anytime a car was sold, cleaning windows, vacuuming them also minor detail work such as buff and waxing vehicles.

Jiffy Lube

October 2015 — April 2016.

Lower Bay Tech

Changing oil, changing differential fluids, doing brakes, inspecting cars and truck for leaks, repairing if necessary. Clean and maintain shop to company standards each and every day. Greeting customers.

The Wave Car Care Center

March 2015 — October 2015

Mechanic

Working as a lube shop tech, doing basic mechanic work, changing oil, transmission flush, coolant/radiator flush, making sure tires are at the correct psi, cleaning up the shop at the end of the day, restocking filters, checking inventory, running a program on a computer to put in customer info.

Northern Electric Inc

January 2014 — May 2014

Apprentice

Operating a heavy equipment Forklift to haul Switch gear around the jobsite, Gathering tools for the day, checking the area for hazards or potential dangers, making sure all tools and equipment are put back in their original places,

Qualifications

Experience With Cars, Mechanics, Detailer, Porter.

Education

Diploma

Vantage Point High School

I have a high school diploma, No college degrees.

August 2007 — May 2012

Interests

I'm a quick hands on learner, I enjoy learning new trades and devices. I have a basic knowledge for construction with flooring included tile and carpet. Love working on vehicles, detail and mechanics. I'm always interested and capable of learning anything new.
