## OBJECTIVE

Achieve career success in the Plastic/ Composite industry, so I may exceed being just another employee, but prevail as an asset to the company, by showing: ambition, skills, diversity, assertiveness, independence, diplomacy. My persistence in educating myself continues to thrive so that I may bring new concepts, and ideas, while maintaining a professional attitude with my employer and fellow coworkers and customers.

## EDUCATION

Certification, Composites, Renewable Resources, CCT

Date Started: October 2011 - Expected date of completion: March 2012

Davis Applied Technology College | Kaysville, UT

Basic and advanced learning of composites and materials currently enrolled in DATC. I would like to further my experience and knowledge with hands on in the field experience to reinforce what I've already learned. This is as follows; learning techniques to provide a quality composite part and or structure, also identifying various Resin Polymer systems. Mold preparation: Cleaning, applying mold release agents and using a spray gun applicator. Non vacuum and vacuum: developing knowledge of wet lay-up techniques as well as oven or auto-processing curing. Prepreg materials. Core materials such as honeycomb and foams: how it works, why we use it, what it does to the finished product. Composite Repairs, Part Finish, Pattern and Mold Construction, Blueprint Reading, Part Testing, Alternative Composite Processes, working with composites and the relationship in renewable resources such as wind turbines as well but not limited to solar panels.

High School or equivalent,

March 2007

Sherman High School | Sherman, TX

Standard GPA est. 2.7-3.2.- Maintained a positive moral, with integrity to continue to educate and develop skills in a diverse community. While attending high school certified in IC3 business course for Microsoft provides full understanding of Microsoft operating systems, understanding extends to Microsoft office.

---

## CERTIFICATION

IC3 Microsoft office and Operating System(s)

Renewable Resources

Composite Technician

December 2008

Overland High

Understanding and use of any and all Microsoft operating systems How to use them as well as capable to trouble shoot most any problems. Knowledge of Microsoft office how to use Spread Sheet, Excel, Word, and PowerPoint.

Business Technology Certification

October 2011

Job Corps Clearfield, Utah

Understanding and reinforcing knowledge of computer literacy and use of equipment: print, fax, copy, create web sites, uploading/ downloading information.

First Aid Certification

November 2011

Job Corps Clearfield, Utah

How to react to given life threatening emergencies. Providing care using knowledge of first aid. I'm currently working on my CPR Certification.

## PROFESSIONAL MEMBERSHIPS / AFFILIATIONS

S.A.M.P.E.

Society of Applied Material Process and Engineering, provides current information and leading technologies in the composite field.

Community Emergency Response Team (CERT)

November 2011

The Community Emergency Response Team (CERT) Program educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. Using the training learned in the classroom and during exercises, CERT members can assist others in their neighborhood or workplace following an event when professional responders are not immediately available to help. CERT members also are encouraged to support emergency response agencies by taking a more active role in emergency preparedness projects in their community.
