7205457269

I've four years of welding experience at Prairie View High School, founded the club there, have participated in multiple Front Range Community College Classes at Prairie View High School, and played basketball and football, mentioned for disciplinary reasons. I look forward to becoming a top notch welder, I'm most experienced in STICK welding and MIG welding but I do have a good deal of experience in TIG as well. Ive only ever certified in STICK but I'm a fairly confident welder. I finished all welding classes at Prairie View a year early, then continued as a teacher's aid, teaching my fellow students to weld, all the while also welding for five hours every Monday in our welding club. Texting me is the best way to contact me, thank you.

Willing to relocate: Anywhere
