Kristi, Hugh, Lisa,

Tonight ( 7-20-12) I witnessed Tala pushing apple carts to MV2 area and distracting an employee from working on the line. I informed Brent to not let him out of the tumbler room and don't have him push the carts to MV2 no more. Later that employee was moved to the adco line and again I witnessed Tala talking to the employee again by the door. I asked Brittany to talk to Tala again about distracting the employee. She gave him a verbal warning. Not even 5-10 minutes later I witnessed Tala at the sliding door of the adco room again distracting that employee once again. I then notified Brittany that it was happening again and she took action. I have witnesses of times Tala had distracted that same employee from doing her job. Rosa Mendoza and Saud Abdulla have mentioned him coming over and distracting that employee.

I have given Talal Attar a verbal warning for leaving his work station and not doing his job. I let him know that next time it is witnessed there will be disciplinary action involved. This email is proof of my documentation of the incident 07/21/12 at 12:33 a.m.
